SANOMA LEARNING CHOOSES SCHILLING TO STREAMLINE THEIR ROYALTY PROCESSES IN THE NETHERLANDS, BELGIUM, SWEDEN AND FINLAND.

Sanoma Learning, part of the Sanoma Group, has signed an agreement with Schilling to implement Schilling's publishing suite in Sanoma Learning's four subsidiaries Sanoma Pro, Sanoma Utbildning, VAN IN, and Malmberg.

Since 2011 Schilling has provided publishing solutions for Sanoma Pro and Sanoma Utbildning. Based on these two companies' experience of close cooperation with Schilling, Sanoma Learning did not hesitate to choose Schilling to provide a publishing system for the entire learning group – a solution that will integrate with the group's SAP ERP.

"The agreement is an important milestone for Schilling and marks the first step in our strategy to become the preferred supplier of contract, rights and royalty solutions in Holland and Belgium", says Jesper Schilling, Director, Sales and Account Management

It is vital for Sanoma Learning to have a proven solution that continuously supports their activities in the market and which can grow in pace with their need to constantly ensure efficient business performance and to always be at the forefront of the educational publishing industry. *"Our company's experience with Schilling's solutions and the close cooperation with the Schilling team over the years made the choice of Schilling an easy one. We look forward to expanding our partnership with Schilling and reaping the benefits of having a common system in all our subsidiaries. We look forward to having a solution that ensures the same processes in all countries and one that integrates well with our corporate finance system, SAP", says Arnoud van der Steenstraten, BT/IT development manager at Sanoma Learning.*

"We are honoured and proud that we have been chosen by Sanoma Learning, one of Europe's leading learning companies, to be their partner and to streamline contracts, rights, and royalties in their subsidiaries across the world. We are very pleased to welcome VAN IN and Malmberg and we look forward to having the same long-lasting relationship as we have with our other customers," says Jesper Schilling.
